Title Index to Volume 8

S1 denotes Volume 8 Supplement 1

The acceptability of Norplant in Egypt 331
Assessing potential demand for Norplant implants in Sri Lanka 115
Assessment of a new modified soft jelly capsule containing nonoxynol as spermicide contraceptive 51
Carbohydrate metabolism after three months of using a gestodene-containing monophasic oral contraceptive 21
Changes in contraceptive practice in a multiracial urban based community over a ten year period 129
Clinical evaluation of quinacrine pellets for chemical female sterilization 141
Clinical experiences with MLCu250 and MLCu375 IUD 73
Comparative assessment of two low-dose oral contraceptives, Lo-Femenal and Lo-Estrin, in Mexican women 291
Cultural factors in oral contraceptive compliance S1:47
Early pregnancy termination: an improved technique for 'menstrual regulation' with ultrasound assistance 349
The effect of low dose oral contraceptives and Norplant on blood pressure and body weight of Nigerian women 27
Enhancing contraceptive compliance and efficacy S1:1
An evaluation of IUD insertion by a non-clinical delivery system 303
Evaluation of the performance of the copper T380A IUD up to ten years. Is this IUD a reversible but potentially permanent method? 275
Free levonorgestrel index and its relationship with luteal activity during long-term use of Norplant implants 319
Immediate postpartum intrauterine device insertion – a report on the Chinese experience 281
Interrupted extra-ovular infusion may not be reversible 355
Long-term evaluation of the clinical performance of the TCu200B and the TCu380A in Campinas, Brazil 67
Medical aspects of oral contraceptive discontinuation S1:21
A multicenter clinical trial in Nigeria with Multiload-Cu250 (MLCu250) and Multiload-Cu375 (MLCu375) intrauterine devices 327
A New Zealand randomized comparative study of three IUDs: Nova-T, MLCu375, MLAgCu250 153
Non-contraceptive benefits of modern low-dose oral contraceptives S1:5
Oral contraceptive noncompliance: the extent of the problem S1:13
Oral contraceptives and cycle control: a critical review of the literature S1:35
Patient counselling S1:67
Patient education and understanding: a critical review S1:57
The possible relationship between menorrhagia and occult hypothyroidism in IUD-bearing women 313
The progestin-only oral contraceptive – its place in postpartum contraception 93
A randomized comparative trial of the MLCu375, TCu220C, Steel Ring and uterine cavity-shaped IUDs 161
A review of the effects of long-acting progestogen only contraceptives on ovarian activity 1
Self-induced abortion – the peril is still real 81
The serum SHBG levels during normal menstrual cycle and after insertion of levonorgestrel-IUD 33
Sources of information, experiences and opinions on sexuality, contraception and STD-protection among young Swedish students 41
Three years experience with levonorgestrel-releasing intrauterine device and Norplant-2 implants: a randomized comparative study 105
When does exposure to agent X cause disease Y? 57
